## COMPANY PROFILE

*"Take Risk in your Life. If you Win, you can Lead; if you Lose, you can Guide." – Swami Vivekananda*

With this belief, few young and ambitious men started a journey towards their dreams by setting up a transportation business in 1982. With bigger and more challenging targets in mind, the journey continued to achieve more and more formidable milestones and the journey still continues, today better known as the '**The Kiran Group**'.

Kiran Group is today a business conglomerate based on the western coast of India at Kandla Port, with a global reach and exposure, having diversified interests in the field of Logistics, Power Generation, Real Estate & Education. Founded with the vision of becoming the most omnipotent Logistics Service Provider, Kiran Group today is recognized as one of the most reliable Logistics solutions providers of India and an undisputed expert in handling cargo with utmost care and getting it delivered to your doorsteps.

Established in the year 1982, Kiran Group today holds a leading position in providing integrated logistics services. With a turnover of INR 2.5 billion and employing around 800 people, Kiran Group has developed at a CAGR of about 19% in the last 10 years. Understanding the diverse needs of an effective and efficient supply chain system, Kiran Group has united all the supply chain requirements of the customer under one roof. Kiran Group's 'One Stop Solution' includes Bulk Liquid Storage Terminals, Custom Clearing, Warehousing & Distribution, Transportation, Port Handling & Stevedoring and Specialized Solutions like Drumming, Sorting, Packing/Re-packing, Labelling, etc. Over the years Kiran Group has successfully served clientage from diverse industries like Chemicals, Edible Oil (veg. oil), Coal Traders, Ferrous & Non-ferrous Metals, Petroleum and Petrochemical, Minerals, FMCG, Agro Products, Consumer Durables, etc., being associated with many MNCs and reputed Indian companies in private as well as public sector.

At Kiran Group, we are committed to provide the most customized & effective Logistics solutions to our clients, which will not only simplify your supply chain but will also provides measurable results. If there is a more efficient, cost-effective way to handle the product through the supply chain, we'll find it, improve on it and offer it to our customers. Our strength lies in our disciplined approach to execution, by utilizing the latest technologies, our infrastructure & fleet resources, our highly trained and motivated workforce and advanced processes. This has ensured group's effective responsiveness and ever readiness to the changing business environment and customer needs.

With our eyes set on more comprehensive goals and our continuous efforts to excel in our services, we invite you to be a part of the success story and trust us with your most complex and critical logistics needs. We assure you of our uncompromising commitment in completing your Supply Chain.
